

# Nexus Distance Care Services for Healthcare

Healthcare organizations strive to continually improve quality of care to ensure positive outcomes for their patients. In today's competitive marketplace, they are also looking for effective ways to grow revenues by providing enhanced patient services, and maximize profitability through productivity gains and strategic cost reductions.

Nexus' Distance Care Services offerings help healthcare organizations achieve all of these objectives through the deployment of integrated, adaptable, and highly available solutions.

## **Increased Quality of Care**

Utilizing Nexus' Distance Care Services, healthcare organizations reach more patients by providing specialist access and urgent care services to remote locations in real time. In addition, distance care enhances collaboration between healthcare teams. Given its geographic reach, Nexus' Distance Care Services solutions also help organizations expand training to reach broader audiences and more effectively communicate new processes, procedures, and patient treatments.

## **Revenue Growth through Enhanced Services**

Nexus' Distance Care Services provide profitable growth opportunities to healthcare organizations by enabling them to acquire and serve new patients through real time access across an expanded geographic footprint

## **Increased Productivity and Profitability**

By eliminating travel time associated with serving remote locations and enhancing real-time collaboration between teams, healthcare organizations can reduce the time required to serve patients and increase the productivity of physicians, nurses and staff.

In addition to increased productivity, Nexus' Distance Care Services reduces opportunity and travel costs associated with providing in-person healthcare services across multiple locations.

## **Combining Healthcare and Technical Expertise**

Having worked with over 100 healthcare organizations, Nexus combines deep industry experience with award-winning technical leadership to create high-value Distance Care Services solutions.
